...to start-up & production

"We need a fully automatic post press system building logs of consistent quality behind a Lithoman 64p, running 32p @ up to 100.000 cph"

The background image shows a paper mill production line. Two large, white industrial machines, identified as Gämmerler SH/700-IG, are visible. They are part of a post-press system. The machines have yellow safety railings and are situated in a factory environment with other equipment and structures in the background. The text is overlaid on this image.
